

We'd like to introduce everyone to our new ice makers, Michelle and Gord Twanow. We warmly welcome the Twanow's to our club and are excited to work together towards another great season on the ice. Here are a few words about Gord and Michelle, who have recently moved to Campbell River from Port Alberni. Welcome to our club and our town, we are very happy to have you!

Gord is a Level 3 Ice Technician starting his ice making career in 1980 in Lethbridge Alberta. He has worked in various curling clubs in Alberta and BC and has mentored several young ice makers. Gord has also made ice at several National events including 1987 Scotties, 1997 and 1999 Men's Brier's also the 1988 Olympic Games. His favourite things are camping, travelling and hanging out with his dog Caper. Gord is absolutely thrilled to call Campbell River home and is very excited to make great ice for many seasons to come!!

Michelle was an insurance broker for 30 years, retired briefly with Gord to Nicaragua in 2012. Returning to Canada she worked at a BC Parks Campground, Wine Vineyard, VIHA and then WFP Cedar Sawmill. Being Gord's partner for 25 plus years she has gained a great deal of knowledge and hands on experience with the ice making process and ongoing upkeep. Michelle is thrilled to have the opportunity to maintain the Campbell River Curling Club's ice surface and meeting all the members. Michelle loves taking her pup to the local beaches.
